Success of Melba's Concert-Collier Wants to Leave Farce Comedy -- Dramatic Pirates Busy.

Mrce. Melba, with her operatic asso

ciates, gave the first of the two con certs she has promised New Yorkers at the Metropolitan Opera-House last night. She was greeted by a large aufience, one of those aggravating assem plages that encore everything and everybody indiscriminately. It was, in fact, a greedy audience, that wanted as nuch for its money as it could possibly btain by undue demonstration. It used left shoulder. Repeat many times. poked upon as a graceful and enviable compliment by the artist. Now it is ery different. If the artist still thinks very different. If the artist still thinks about it at all, she probably says to herself: "They are after another song. I suppose my manager expects me to give one." Mme. Melba, however, deserved all the applause she got. She was in splendid voice, and her liquid, limpid tones were delightful to the ear. She sang an aria from Handel's "Aliegro" most brilliantly, emphasizing every thread on the labyrinthine lace work of the sorg. A new "Ave Maria," by Cooper, was also interpreted by Mme. Melba, but her voice is not so wonderful, when she does not use it in roulades. For an encore she warhied "The Old Folks at Home" very sweetly, and the song charmed the audience. Melba will probably use this as Patti used "Home, Sweet Home." Mme. Scaichi surpassed herself. Her rich contraito tones showed not the least sign of wear and tear, and she made quite as much of a hit as did Mme, Melba. Scaichi's picturesqueir suitable dress was worth looking at. One could have imagined her framed as "The Portrait of a Nineteenth Century Lady." M. Piancon was not as effective as usual. He made very little of the "Anvil" song from "Philemon et Baucis," or of the stirring "Two Grennders." M. Mauguere sang quietly and artistically a berceuse by Augusta Hoimes, and "Tu me derais." by Chaminade. The second part of the programme was devoted to the third act of "Faust," with Mme, Melba as Marguert eas Faust, and Scaichi as siebele. Altogether, this concert was a most enjoyable affair, and an undoubted sucabout it at all, she probably says to bel. Altogether, this concert was a me enjoyable affair, and an undoubted su

Willie Coilier, the jovial young actor, who used to be cail-boy at Daly's Theatre, and who finally became so audaclous that he finally gave imitations of the manager himself, has been trying to forcake farce-comedy. He is presenting a new play called "A Back Number," in which he does work of the Sol Smith Russell order, and his friends don't like it. They want Willie to keep to the style of entertainment that made him successful. Isn't it funny that the public will not allow actors to get away from themselves? And how anxious the actors are to make the attempt. Look at Nat Goodwin, Sol Smith Russell, Timothy Murphy and John Drew. In the last instance only has the actor been able to do as he liked. . . .

The "Charley's Aunt" man gement are having a very unpleasant time with the pirates. There seems to be a strong desire to crib this play that has been so much talked about. The pirates reigupon foreign languages for secrecy and darkness. Nobody attempts to steal "Charley's Aunt" in English. It was cribbed and acted by German and Scandinavian actors in Chicago; an attempt was made to produce it in German in Fhiladelphia, and another in Salt Lake City. There surely never was a play that called forth so many deep, dark, audacious schemers. The "Charley's Aunt" man gement ar

An enterprising Rhode Island publisher has offered to furnish the "Shenandoah" managers with any niumber of \$2.25 volumes of Gen. Philip H. Sheridan's life for 25 cents apiece. The publisher suggested that they would be so valuable as souvenirs. He did not know that the average theatrical souvenier flend would sooner have a five-cent plaque or a ten-cent ash receiver than all the literature published. The souvenir flend is a strange, uncanny brand of humanity.

"The Cotton King." just produced in Boston, was very tactfully boomed by Measurs. Brady and Corbett. While they were in London they sent out pretty cream-laid invitations from the English metropolis to the residents of the Back Bay, asking them to be present when "The Cotton King" was produced in Boston. This gave a sort of intangible veneer to the production, dontchernow. Before the piece was parted over on the posters, because the Bostonians don't like nim. George Walton is the name of a comedian with a long history, who will make his debut in America Monday night in "Little Christopher Columbus." Mr. Walton is not beautiful to gaze upon, but he has that which managers are always looking for, known as "a comedy face." Mr. Walton made his first appearance on the stage when he was two months old, and he has been acting ever since. He has been in forty different pantomines in England, and he is said to be the man who led George R. Sims to fame and fortune by making that writer's early plays popular. Walton has appeared under the management of Edward E. Rice when that ubiquitous gentleman was in Australia.
